

THIBETANS TO SECURE MOVIE PICTURE PLAYS

Are to Be Given Opportunity of Seeing Some of the Wonders of Vast Outside World

LONDON, Sept. 16.—Thibet, it is hoped, will not much longer be the land of mystery. Nor will the great outside world, it is expected, continue to be the great land of the unknown to the Thibetans. They are to be offered an opportunity of seeing, on the movies, something of the wonders to be found in the world beyond Thibet. In exchange it is hoped they will allow cinematograph pictures to be taken of the wonders of Thibet for people of other lands to see.

A cable just received in London announces the arrival in Calcutta of the members of the British Buddhist mission to Thibet. They have begun the long and difficult journey on foot through the Himalayas.

On their way to Darjeeling the mission visited the bodhidharma (or "tree of intelligence"), the sacred tree under which, according to Buddhist tradition, Buddha was sitting in contemplation when he attained the perfect wisdom. A film is to be taken of the tree and of the pilgrims visiting it, and it is hoped to show these pictures to the Dalai Lama in Lhasa itself. Films of wild animals and the various aspects of the outside world, also being carried in order to offer to the highest Thibetan authorities the first cinematograph exhibition ever given in their famous city.

One of the objects in displaying the wonders and possibilities of moving pictures is to secure permission for making film records of the country and its people.

EXPLORER SAYS POLE REALLY ACCESSIBLE

LONDON, Sept. 15.—Modern airships of the German type could make the trip from London to the north pole a distance of 4,600 miles, within a week, says Maj. Richard Carr, aerial expert of the Shackleton Antarctic expedition. Fuel for the entire distance could be carried, and no landings need be made.

"I am fully convinced that we have left far behind the old-fashioned methods and that in future polar exploration will be done by aircraft during the summer months," Major Carr continues. "Very few persons realize how mild the Arctic and Antarctic summers really are, and the wonderful improvement in aircraft."

Major Carr made important observations on flying conditions in the Antarctic. "During the seven weeks we were in the ice," he says, "the lowest temperature recorded was 5 degrees Fahrenheit and the average approximately 20 degrees. The wind average was eight to ten miles an hour, and the air and sky were wonderfully clear. So clear was the air that mirage was very frequent. We had more than 300 perfect flying hours."

SEEKERS OF ELDORADO DRUGGED AND ROBBED

HAVANA, Cuba, Sept. 15.—Nine emigrants from central Europe and one from China recently paid \$150 each for a 10-hour motor boat ride, a cup of drugged coffee and the privilege of footing it 36 miles back to Havana after being robbed of \$150.

According to the story they told the police, three men agreed to land on the Florida coast without bothering the American immigration authorities. Boarding a motor boat at dusk near Marianna, they put to sea. At dawn the next day, after several hours deep slumber brought on by what they believe was drugged coffee, they were landed in a desolate cove, told they were on American soil and left to shift for themselves after all their cash and valuables had been taken at the point of a pistol. A little scouting located the Cuban village of Pibacoa and a rural guard who pointed out the road to Havana.

The police are holding a man who says he is an American and a Cuban, charged as principals; the third man has not yet been found.

EACH PERSON EATS HALF AN EGG A DAY

WASHINGTON, Sept. 15.—Did you eat half an egg today? If not, you were cheated, and did not get your share of the day's egg crop. For, according to the department of agriculture, the per capita consumption of eggs is one-half per day.

More eggs have been laid this year than ever before, the department finds. The total is approximately 22,000,000,000 eggs, an increase of 10 per cent in production since the war. There has been a decreased consumption in poultry and farmers have been compelled to keep their hens on the farms.

INDIANS GATHER WILD RICE CROP IN MINNESOTA

Word Has Passed From Buck to Squaw That the Crop This Year Will Not Be Big

DULUTH, Minn., Sept. 16.—Mah-noh-min, the wild rice of the north, the Indian's grain for winter consumption, is ripe. Word has passed from buck to squaw, or reverse, that the crop this year is not a large one. Gleaning must proceed rapidly, for a hungry horde of wild ducks will descend on the vast rice beds and scatter down the rice to the last stem, which they strip clean of kernels.

By day, and under the full moon, the squaws are searching the lagoons of the muskeg country for rice beds. Certain localities are known to have rice beds and other localities breed the rice over-year. Where no rice was found last year it will be found this year.

The crop is gathered today as it was in the days of Hiawatha and Minnehaha. Canoes are piloted through miles of rice beds. The rice is either snipped off the stem or pulled from the water. Taken into the canoe, it is dislodged from the stem by beating with a paddle. Thus a canoe will be loaded in a day. The hulling is done by heating the rice in its shell, and while it is yet hot it is treaded by moccasined feet.

Wild rice is for sale at principal grocery stores in the north. The rice is bought at trading posts direct from Indians, or from traders who get it from Indians. The work of gathering the rice is so tedious that few white people attempt it.

COLLEGE STUDENTS ENGAGE COAL MINING

TERRE HAUTE, Ind., Sept. 15.—A seven-foot coal vein has been found on the campus of Rose Polytechnic Institute here, it has been announced. According to Philip R. Woodworth, president, the vein is several feet above the new building on the Hillman farm, just east of Terre Haute.

Students at the college will work the mine, it has been decided, and if the fuel proves to be of good quality it may be used to heat the Rose Poly buildings, it was stated. A number of students taking a course in mine engineering have enrolled for the work. Sinking of the shaft for the work will take place during the present year, it is planned.

BANKERS WILL VISIT WITH CALIFORNIANS

SAN FRANCISCO, Sept. 15.—California will play host for two weeks in October to the Investment Bankers' association of America. Half a dozen trainloads of members of the association and their families will leave Chicago Sept. 30, crossing the state line Oct. 1.

Sacramento will be the first city to welcome the visitors. An automobile tour will be made through part of the Sacramento valley, and from Fresno, where the train will be parked for the night.

Los Angeles and Santa Barbara will be visited next, after which the investment bankers will stop at Del Monte for the business sessions of their convention. San Francisco will receive the visitors Oct. 13.

GREAT STADIUM NOW NEARS COMPLETION

PASADENA, Calif., Sept. 15.—Work on the new stadium of the Tournament of Roses association is almost completed, officials of the association announce. Seventy-five per cent of the seats have been finished and the football field is in condition for play, having been in the care of a gardener for over two months. The task is to install the remaining seats, finish the cement work and put on the finishing touches in general.

The stadium, horseshoe in shape and built upon mounded earth, will have 60,000 seats, but in emergencies will be able to accommodate 80,000 persons. In all it will cover sixteen acres, with a length of 1100 feet and a width of 540 feet. Two million pounds of steel and 40,000 cubic yards of cement have been used in its construction.

The running track, now nearly completed, will have a straightaway of 220 yards.

MULTNOMAH ATHLETES GET GREAT COACH

PORTLAND, Ore., Sept. 16.—Bill Steers, one of the greatest football players ever developed in the Pacific northwest, is to be assistant coach of the 1922 eleven of the Multnomah Amateur Athletic club team here. Steers starred as quarterback and halfback for the University of Oregon and led the famous team which lost to Harvard by but one point at Pasadena. Lane Falk, former University of Washington player, is head coach at the Multnomah club.

GERMAN POTATOES CHEAP IN ENGLAND

LONDON, Sept. 16.—Potato dumping is the latest accusation made against Germany by tariff reformers who for some time have been clamoring for the imposition of higher duties against imports from Germany. Not long ago British farmers were getting from £10 to £18 a ton for their potatoes. Now they find them a drug in the market at prices as low as £2.

"The explanation of this fall," says one authority, "is wholesale dumping by German and Dutch growers. The German government, before and during the war, stimulated the growth of potatoes in order to provide a reserve of food and also for the distillation of alcohol. This surplus has been thrown on the British market, the only one which will admit it without heavy duties, and it has been sold for what it will fetch. As a result the unfortunate British farmer is being reduced to something very near despair, and in some cases is refusing to market his crop."

NATIONAL DRAINAGE CONGRESS TO MEET

KANSAS CITY, Mo., Sept. 16.—Reclamation of thousands of acres of swampy and overflowed lands, and modern methods of flood control and river regulation, will be discussed at the annual convention of the national drainage congress, which will meet here Sept. 25 to 29.

One of the features of the congress will be an immense exhibit of excavators, dredges and drainage pumping machinery, placed on display by manufacturing companies.

Among those who have been asked to address the congress are Gov. A. M. Hyde of Missouri, H. S. McCreary, chief of the bureau of drainage investigation, U. S. department of the interior; R. H. McWilliams of Memphis; George B. Massey, Jacob A. Hartman of Peoria, Ill.; Frank W. DeWolfe of Urbana, Ill.; Hyatt L. Frost of Cornersville, Ind.; Clarke E. Jacoby and R. S. Green of Kansas City and Edgar A. Rosauer and Robert Isham Randolph of Chicago. Representatives of allied interests, including those of the Mississippi Valley association and the American Society of Agricultural Engineers, also will be in attendance.

DIVIDE EXTENSION IN SPLENDID ORE

Divide Extension, development, which is confined wholly to the leasing system, is quite prolific of results, and occasional shipments of high-grade ore are being made. This ore is coming from between the 100 and 200-foot levels of what is known as No. 2 shaft and is evidently a continuation of the rich shoot that was mined about a year ago. The shoot at that time was lost owing to a fault that occurred, and a large sum of money was expended by the company in an effort to pick up the ore vein.

Edward Boya, superintendent of the mine, who is now making his home at Virginia City, paid a visit to the property during the week to note progress of development that is going forward.

INDIA FREEMASONRY REPORTS PROSPERITY

BOMBAY, Sept. 16.—Freemasonry in India is to a highly prosperous condition, according to the Indian Masonic year book, which has just been issued.

All three constitutions of the United Kingdom are represented, England by five district grand lodges, Scotland by a separate grand lodge, and Ireland by a number of detached lodges not under a separate jurisdiction. At Bombay fifty-seven units meet in the Freemasons hall—thirty-two being English. There are twenty-three English lodges in Calcutta, in addition to eight Royal Arch chapters in India divided among five subordinate jurisdictions, while English Mark Masonry is represented by seventy-six lodges.

HOLLAND READY TO FEED RUSS KIDDIES

MOSCOW, Sept. 16.—Holland, which cared for thousands of undernourished German children during and since the war, volunteered recently to nurse back to normal several thousand Russian children if the soviet government would bear the burden of transporting the youngsters to The Hague.

The holcheviki have agreed to the proposition. This is the first time the soviet have accepted help of this kind from foreign countries.

BASEBALL CLUBS TO GET OVERHAULING

SAN FRANCISCO, Sept. 16.—Two clubs, Oakland and Sacramento, of the Pacific Coast Baseball league, are to be given thorough overhauls before the 1923 season opens, according to word received here. Del Howard, one of the Oakland chiefs, advises that he is planning to add to his team two infielders, a catcher and three pitchers. In Sacramento Lou Moreland, one of the owners, is reported ready to sell or trade some of his veterans.

WEST END CON. IS BUSY MINE PRESENT TIME

Company Mill Is Treating on an Average of Two Hundred Fifty Tons Daily

MACNAMARA CONTRACT ENDS

Large Development in Progress Through West End and Ohio Shafts

Ore production at the West End Consolidated will be slightly decreased as a result of the termination of the contract with the MacNamara Mining and Milling company, and instead of 329 tons being mined daily the output will be cut to 250 tons. A heavy earning is resulting and there is a hum of activity in evidence which is an assurance that operations are going forward at top speed.

The official report of operations for the seven-day period ending Saturday morning, Sept. 16, follows:

From the West End shaft, drift 347 made the usual advance in low-grade quartz without change. Crosscut 401A continues to the north in Mizpah schist. Crosscut 413B was advanced without change.

From the Ohio shaft, crosscut 415 continues in silicified trachyte. Intermediate drift 510 was advanced in low-grade quartz. Hanging wall drift No. 533A has been started to the east for prospecting purposes. Drift 551 was advanced in low-grade ore. Drift 555 No. 3 continues on a full face of quartz without change. Crosscut 614 was advanced in trachyte. Raise 805 No. 1 has passed through the vein and holed to 845 slope No. 2 on ore of mill grade. Drift 805 No. 2 has been started to the east. Crosscut 805 No. 2 has been started to the west from crosscut No. 1 for mining purposes. There is no change to report in 874 raise. 862 crosscut or 876 crosscut.

Regular work was performed in Tonopah 76 ground without change to report.

The West End company on Sept. 10 ceased operating the MacNamara mill. This will necessarily reduce regular tonnage for the time being from 329 to about 250 tons of ore per day.

NOTICE TO CREDITORS

In the district court of the Fifth Judicial district, of the state of Nevada, in and for the county of Nye, in the matter of the estate of H. H. McCarthy, deceased.

Notice is hereby given, that the undersigned has taken possession of the estate of H. H. McCarthy, deceased, which estate has a value of less than Three Hundred dollars.

All creditors having claims against said estate are required to file the same, with proper vouchers attached, with the clerk of the court within thirty days of the first publication of this notice.

Dated September 9, 1922. RAY W. PIERCE, Public Administrator of Nye county, Nevada. Lowell Daniels, attorney. Sept. 9-16-22-30.

NOTICE OF CLOSE OF REGISTRATION FOR GENERAL ELECTION

NOTICE IS HEREBY GIVEN that registration for the general election to be held on November 7, 1922, will close on Tuesday, the 15th day of October, 1922.

Election may register for the ensuing election by appearing before the county clerk at his office or by appearing before a deputy registrar in the manner provided by law.

L. E. GILLES, County Clerk. Sept. 16-22-30.

BULLFROG-GOLDFIELD RAILROAD COMPANY

Notice of Annual Stockholders' Meeting

NOTICE is hereby given that the regular annual meeting of the Bullfrog-Goldfield Railroad company, will be held at the office of said corporation, at Goldfield, Nevada, on Wednesday, the fourth day of October, 1922, at 5 o'clock, p. m. of that day, for the following purposes, to-wit:

1. To elect seven directors to hold office for the ensuing year and until their respective successors are elected.

2. To consider and act upon a proposition to ratify and confirm all acts and proceedings of the officers and board of directors of said corporation in connection with the issuance and exchange of 148 first mortgage bonds bearing date the first day of January, 1921, and 68 outstanding second mortgage bonds bearing date the 15th day of July, 1914.

3. To consider and act upon a proposition to ratify and confirm all acts, proceedings, elections and appointments of the officers and board of directors of said corporation since the regular annual meeting of the stockholders of said corporation, held on the fifth day of October, 1921.

4. To transact all such other and further business as may properly come before said meeting.

By order of the board of directors of said corporation. Dated the 15th day of Sept. 1922. C. S. MILLER, Secretary of said corporation. First publication, Sept. 15, 1922. Last publication, Oct. 4, 1922.
